OBJECTIVE

Results-driven cybersecurity graduate with hands-on experience to offensive and defensive approaches, including reconnaissance, exploitation, penetration testing, and incident response. Seeking to employ technical talents to assess, detect, and mitigate threats across varied environments. Passionate about ethical hacking, secure system design, and digital forensics. Eager to contribute to constructing robust infrastructures while continuously expanding experience in real-world circumstances.

EXPERIENCE

Cyber Security & Digital Forensics Intern – Cyber Secured India

April 2025 – Present

- Analyzed system and network while executing real-world offensive and defensive techniques, including reconnaissance, exploitation, and privilege escalation.
- Utilized tools like Nmap, Burp Suite, and Metasploit to identify, exploit, and mitigate vulnerabilities across web, Android, and cloud environments.
- Investigated digital forensics cases and applied defensive strategies to safeguard cloud infrastructures and OS-level systems.

Threat Analyst – BigXTechnology

July - October 2024

- Collaborated with the Threat Analysis group at BigXTechnologies to identify and analyze potential cybersecurity risks.
- Implemented security measures and contributed to strategies that enhanced system protection and minimized vulnerabilities.
- Achieved 1st place in the IONX CTF#24 Capture the Flag competition, demonstrating exceptional problem-solving abilities and cybersecurity expertise.

EDUCATION

Bachelor of Computer Application (BCA)

Saurashtra University

2020 – 2023

CGPA: 7.39

12th Commerce (Higher Secondary Certificate)

SSV School

2018 – 2020

Percent: 58.93%

10th (Secondary School Certificate)

NKS English High School

2018

Percent: 70.72%

SKILLS

Technical Skills

Networking, Network security, VAPT, SIEM, EDR, ZAP, Nessus, Nmap, Wireshark, TCPdump, Burp Suite, Virus Total, Maltego, Spiderfoot, Metasploit, Snort, LimaCharlie, Splunk, Wazuh, Incident management, AWS, Monitoring, Investigate, Log analysis, Programming

Non-Technical Skills

Analytical, Collaborator, Adaptable, Creativity, Attention to details, Problem solving

PROJECTS

InFusion (In progress)

A high-performance word list generator in GoLang for use in penetration testing and cybersecurity tasks. Optimized for speed and efficiency, the tool compiles to native code for fast execution, enabling effective code cracking and vulnerability assessments.

Google Cloud Platform Arcade games

January 2025 – Present

CERTIFICATES

IONX Certified Network & Network Security Associate (ICN2SA)

IONX Certified Cloud Associate Architect (AWS) (IC2AA)

IONX Certified Cyber Security Expert (IC2SE)

Ethical Hacking Essentials (EHE)

Certified AppSec Practitioner (CAP)

Tata Cybersecurity Security Analyst Job Simulation

Fortinet Certified Fundamentals in Cybersecurity (FCF)

OPSWAT Cybersecurity Fundamentals Associate (OCFA)

OPSWAT Network Security Associate (ONSA)

OPSWAT Web Traffic Protection Associate (OWPA)

OPSWAT Introduction to CIP (ICIP)

LANGUAGES

English, Hindi, Gujarati, Kannada
